

What is the Dropbox tool?

The Dropbox tool is an e-solution that streamlines the submission process. It enables assignment submission directly to the Learning Environment eliminating the need to mail, fax, or email assignments.

Why use the Dropbox tool?

Use the Dropbox tool to:

- Set up folders for assignment submission
- Restrict access by date, time, group membership and/or special access permissions
- See individual or group users' submission time & date
- Download assignments to your computer
- View submissions with the document viewer on the Leave

Dropbox Tool

of feedback they have received.

Leaving feedback & grading submission

The Leave Feedback page contains:

1.   : you download submissions to work offline or view them in-line with the document viewer.
2.   : the users file submissions are ordered by date
