

Respiratory Therapy Application Process

Students seeking the Associate of Science in Respiratory Therapy Degree

Currently, the AS Respiratory Therapy Program accepts one cohort each year in Fall. All AS Program applicants must meet minimal requirements for entry, apply to the college, submit complete transcripts, complete the REE and submit three professional letters of recommendation for consideration.

All applicants must complete the [Respiratory Entrance Exam \(REE\)](#) as a part of the admissions process. *Applications will not be considered complete without a completed REE and therefore not considered for admission to the program.* Students may register to take the exam through the [Testing Services](#) at either the Macon, Cochran or Warner Robins Campus:
