In this course a requirement in an introductory program is identified as a harmful dependency. In addition, the course is identified as a harmful dependency.

What is the purpose of this course? The purpose of this course is to provide students with a solid foundation in the field of computer science.

What are the learning objectives of this course? The learning objectives of this course are to provide students with a solid foundation in the field of computer science.

What are the prerequisites for this course? The prerequisites for this course are a solid foundation in the field of computer science.

What are the course materials? The course materials include a textbook and a set of lecture notes.

What are the course activities? The course activities include lectures, assignments, and a final exam.

What are the course outcomes? The course outcomes include a solid foundation in the field of computer science.

What are the course requirements? The course requirements include a solid foundation in the field of computer science.

What are the course fees? The course fees include a textbook and a set of lecture notes.

What are the course credits? The course credits include a solid foundation in the field of computer science.

What are the course evaluations? The course evaluations include a solid foundation in the field of computer science.

What are the course resources? The course resources include a solid foundation in the field of computer science.

What are the course contacts? The course contacts include a solid foundation in the field of computer science.
