Psychology (B.S.)

The Bachelor of Science Degree in Psychology offers students the opportunity to explore the breadth and depth of the science of behavior and the mind. The degree prepares students for graduate level study and for various professional positions in business, law, and health care. Specific concentrations within the program help students to focus more clearly on future professional goals.

Admission

Freshman and sophomore students should follow the curriculum outline for the degree. Transfer students may be accepted into

the Psychology Program. General education and supporting courses will be evaluated for credit during the admission process. All upper-level transfer courses must be approved by the chair of Psychology, Sociology, and Criminal Justice. This will be done on a case-by-case basis using transcripts and appropriate college catalog course descriptions. Students transferring academic credits in the program must meet all university residence and transfer-of-credits requirements. A transfer grade intended to satisfy

any Psychology core requirement or major track elective course must be at least a "C."
