Mr. Weathersbee called the meeting to order at 10:10AM.

Minutes of the fall 2017 meeting were approved with changes.

Old Business

Chief Douglas reported no changes in the status of proposed legislation on campus carry. The legislature passed bill again this session but it has not been signed by Governor Deal.

The Dublin classrooms have not been retrofitted with locks, nor is work contemplated (too costly). Campus Police have addressed the problem in their training and notifications.

Ms. Stroud reported that progress has been made on crosswalks between the Macon residence halls and the main campus nor on concerns about traffic exiting campus off of University Park. We will have to await action from Macon-Bibb County. Ms. Lowman noted that the problem with fast moving vehicles crossing the walkway on the Warner Robins has gone away. Vigilant law enforcement has taken care of this issue-no crosswalk markings are needed.

New Business

No new business was brought before the committee.

The meeting adjourned at 10:35AM
