# MUSC 4100 RECORDING STUDIO FUNDAMENTALS

**Prerequisites:** Permission of the instructor

**Corequisites:** none

**Course Description** (Middle Georgia State University Catalog)

This is an introduction to the techniques of recording sound in a professional studio, including sound

editing, mixing, and mastering. This course will be offered

off-site and students must provide their own transportation.

## **Student Learning Outcomes**

At the completion of this course, the student will be able to:

1. Explain recording studio concepts and terms.
2. Describe the sequential steps of the recording process.
