Review of program modifications and related courses:

- M.A. in Teacher Education with Initial Certification
- Motion to discuss: Benjamin Page
- Second: William Lowery
- Proposed by Sumi:
Changes to the learning outcomes in the M.A. in Teacher Education are currently being proposed to adhere to the structure of new changes to standards that the Georgia PSC has adopted. This modification is to keep the language consistent and aligned.
- Motion to approve: Tammy Haislip
- Second: Christine Rigsby
- Modifications with related courses approved

- Rehabilitation Science
- Motion to discuss: Viktoriya Lanier
- Second: Benjamin Page
- Proposed by Betsy McDaniel:
 - Program modification: Rehabilitation Science (B.S.)
A Sports Medicine track has been offered for the in the B.S. Rehabilitation Science within the Department of Rehabilitation Science and Fitness. This modification would benefit students seeking careers in Athletic Training, Physical Therapy, Occupational Therapy, many other avenues in Physiology. There are many athletes in the program who are interested in Sports Medicine or careers within that arena. The new courses will be taught by Rehabilitation Science instructors who are also Physical Therapy practitioners. The department is also moving to deactivate the graduate track because due to lack of success/interest because of the restrictive nature of the track. This new modification will provide students with a stronger prerequisite for graduate tracks in the future.
 - New courses:
 - RHAB 3412 Nutrition for Performance
 - RHAB 3450 Sport and Exercise Psychology
 - RHAB 4420 Strength and Conditioning
 -

substitute ITEC 6620 with one of the 3 electives: MGMT 5700, MCOM 6000, or MKTG 5000. This gives students a wider range of choices.

- Motion to approve: Tammy Haislip
- Second: Viktoriya Lanier
- Program modification approved
