

The OTA Program saw a drop in the number of students who declared OTA as their intended major and in the number of applications received in 2022-2023. Healthcare programs across the nation have experienced a decline in students following the COVID-19 pandemic for many reasons, however we anticipate that the decline is over and our numbers will begin to increase again due to removal of vaccine requirements in clinical facilities and other considerations. We have also developed virtual information sessions for all programs that we deliver monthly to assist students with questions and drive interest in our programs. We are also planning some changes to the Rehab Science degree to make the career options clearer for potential students.
