A

Fully Online and Flexible Program of Study

Our Master of Arts degree requires 30 credit hours. Courses focus on Digital Age writing—public, professional, and technical—as well as editing, publishing, web development, and instructional design.

The degree will enhance your existing credentials across a wide range of professions, such as social media manager, web content editor, market research analyst, digital copywriter, corporate blogger, instructional designer, military personnel, and public relations specialist.

Upon completion of the M.A., the graduate will earn both the master’s degree and a certificate in Technical Writing & Digital Communication.
