1.

increasingly global environments. Macon State College is strongly committed to quality education through excellence and innovation in teaching. Flexible and accommodating, the college enrolls approximately 6,500 students, including military personnel, early enrollment students, traditional and non-traditional undergraduates in day and evening courses, both on the main campus and at convenient off-campus sites. Almost two-thirds of the degrees awarded annually are at the bachelor's level with business administration, nursing, early childhood education, and information technology being the most popular areas of study. Most of the remainder are associate degrees with two-thirds of those in transfer general education programs and one-third in career associate nursing or respiratory therapy; less than 2% are certificate programs. The college offers challenging courses and programs which have very successfully prepared students for the baccalaureate degree and professional competence. The college has consistently sought and obtained the best qualified personnel available including faculty, staff, and administrators, who are committed to the best possible teaching and learning environment and who care about the progress and success of people.

Middle Georgia College:

Middle Georgia College (MGC) traces its roots back to New Ebenezer College, established in 1884 and supported largely by local Baptist churches. In 1919, the University of Georgia's College of Agricultural & Mechanical Arts opened a branch campus on that then unoccupied former high school site. Its name changed to Middle Georgia Agricultural & Mechanical Junior College in 1927 and changed again to Middle Georgia College in 1929. It became an independent institution in 1931 and was one of the original units of the University System of Georgia. During World War II, MGC hosted the 50th College Training Detachment of the U.S.

2. List of Degrees

List all degrees currently offered (A.S., B.A., B.S., M.A., Ph.D., for example) and the majors or concentrations within those degrees, as well as all certificates and diplomas. For each credential offered, indicate the number of graduates in the academic year previous to submitting this report. Indicate term dates.

Degree	Program Name	Originating College Prior to Consolidation	FY12

Comments: The Director of the MSC Respiratory Therapy program has contacted the accrediting agency. The accrediting agency has indicated that the program is accredited on a ten year cycle and will remain accredited. The next Self Study is due by July of 2015 with a site visit within six months.

Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM)
233 N. Michigan Avenue
21st Floor
Chicago, IL 60601-5800

Programs Accredited: MSC, B.S. in Health Information Management
MSC, A.S. in Information Technology

Date of Last Review: January 23, 2012

Comments: The program director has contacted the accrediting agency about the upcoming consolidation. MSC is currently in the process of closing these programs due to low enrollment, poor student retention, low graduation rates, and a lack of trained professionals to support instruction. The college is currently working with SACS and developing a teach-out plan for current students enrolled in the program.
